RE: StyleLinks Benching – Single-Sided Wire Access Cover for Unpowered Applications

Effective August 5th, 2019, an optional single-sided wire access cover is available for use in non-powered single-sided StyleLinks Benching units. This cover is the same part that is included within the standard bill of material when a powered single-sided unit is specified and is intended for use in non-powered or plug-and-play installations where the customer would like to cover the wiring. Models can be found in the Accessories section of the StyleLinks Benching product offering and are provided below for reference. Specify by worksurface width.

For 29” high applications: CZBWAC.size
For 42” high applications: CZBCWAC.size

Thank you,

Jay Steinbrecher
