RE: Piper/Dakota Felt Glide Addition

Effective 10/2/20, a felt glide will be added to Piper and Dakota

The reason for this addition is due to the increasing amount of unique floor types requiring a softer glide, such as felt.

This new glide has a plastic (polycarbonate) body and a nylon cap. The 4mm thick felt pad is insert-molded into the nylon cap, giving it a secure fit. The felt pad portion of the glide is field replaceable and recommended to be replaced on an annual basis. **Warranty for all felt glides is 1 year.**

Piper and Dakota Felt Glide

Part #: 46.4330.X

Configuration and pricing have been updated to include this addition.

Please let me know if you have any questions.

Thank You,
