

CHANGE NOTICE

P.O. Box 8400
Green Bay, WI 54308-8400
(920) 468-8100

Implemented By: KI-KP

Notification By: Scott Vissers

Date: 1/1/2008

Component Product Title: **Volition Desking Leg Grommets**

Effective: **1/21/2008**

ECN: # 11260

Description of Change: **Based on feedback from customers, legs used on the Volition desking product will now have two grommets at the top vs. the original style that had two grommets at both the top and bottom of every leg.**

Reason for Change: Improved aesthetics. The lower grommets were seldom used for the routing of data and/or power and we often had requests to provide legs with only the top grommets, especially on the Executive desks.

Action Required: None: Volition desks are shipped as complete kits (vs. individual components) and product ordered after 1/18/08 will include the upper-grommet only leg style.

If you are using the OEI Encompass CAD™ software to plan your furniture layouts, it will be revised to show the new legs in the 3D views.

If you do not regularly update your Encompass CAD™ (formerly FMCS) please contact Sandra Welch at 920-406-3497 or Jeff Bohlman at 920-406-3302 for instructions on how to do so.

Any literature that contains the old style legs will be revised as the literature is reprinted. **The new Volition color brochure shows these upper grommet legs in all the photos.**

Customer Notification: UNICOR DC, Englewood & Coleman, all State customers.
