RE: Non-Powered Tables with Activ8 Components

Please note, if Activ8 is specified with any non-powered table (excluding H-Base), it requires a special to be written for an Activ8 trough (not currently standard for KI/OEI) to contain the Activ8 infeed and jumper cords. This will be in addition to leg wire management if required along with ganging mechanisms. The Activ8 trough is based off of the design of the HurryUp/Develop H-Base trough shown below (excluding receptacles):

Please contact me with any questions or concerns.

Thank you,

Weston Schilawski
