Support materials for the culled colors (samples, color cards and finish specification info sheets) have been pulled and the colors have also been removed from the system.

The discontinued colors will remain through the end of September to ensure existing quotes and orders will flow seamlessly. Existing quotes for culled colors will have approximately 90 days to be submitted to OEI Order Entry; as those colors will be turned off in BPCS 01.04.17.

The culled colors will also remain available through Custom Options (additional upcharges, minimum quantities, and lead-times may apply).

Note: Updates to edge colors are in progress.
