RE: Legion 54" Wide Panels

Due to growing demand, 54" wide Legion panels are available for specifying effective 9/8.

The product offering catalog is being updated to reflect this addition. ECAD version 19.24 contains the product width addition:

All factories have been provided tooling to locate the right stiffener as the current Legion stiffener tooling locates components up to 48" wide.

Please contact your Customer Account Coordinator or Sales to obtain model numbers and updated bill of materials.

Thank you,
