RE: Activ8 – Villa Modules now with USB

Effective September 27th, all Villa modules will include two USB ports, two simplex receptacles, and one data opening (customer supplied data jack). If the customer requires two data openings, they can be ordered through Custom Options but will not include the USB ports.

Model numbers to the Activ8 modules will not be effected with this running change (AC8VMC.XX/AC8VMN.BL).

Please contact Jay Steinbrecher or myself if you have any questions or concerns.

Thank you,
Weston Schilawski
