

OEI Memo

To: All OEI Powerworks Customers

From: Mark Bushaw/OEI Engineering

Date: 8/3/09

Re: Powerworks Universal Trim Change Notice

This memo is to notify all OEI Powerworks Customers the universal trim #46.0032.xx has been notched on full length upholstered and non-upholstered extrusions.

The notches will be added on the backside to ensure proper placement and eliminate the possibility of slippage. The notching process will be performed at the KI factory prior to shipping KD orders.

NOTE: The notch is to be located on the top half of the part after assembly is completed.

Please contact Mark Bushaw 920-468-2629 with any questions or concerns.

*Thanks,
Mark Bushaw*
